

**CUSTOMER ADVISORY 9507**  
**ORDERING CODE CHANGE**

In early August of 1995, Altera announced in ADV9506 that the ordering codes for the EPM7192, EPM7160, and EPM7128 were substituting the EPM7192E, EPM7160E, and EPM7128E respectively which are pin, function and programming file compatible. In keeping with this strategy we are now consolidating ordering codes in the Classic family of products.

Effective immediately, the substitute ordering codes in Table 1 should be used as direct replacements for the existing Classic family ordering codes shown. Altera will continue to accept orders for the existing ordering codes until January 31, 1996 -- all orders after January 31 should reference substitute ordering codes. Final shipments by Altera of the existing codes will occur no later than April 30, 1996.

Should you need additional information or assistance, please contact your local Altera sales representative. Your cooperation is greatly appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Latimer', with a stylized flourish at the end.

John Latimer  
Quality Systems Engineer

**Table 1: Affected Classic Ordering Codes**

| Existing Code | Substitute Code |
