

## **PRODUCT DISCONTINUANCE NOTICE FLASHLOGIC DOWNLOAD CABLE (PL-FLDLC)**

Altera will be discontinuing the FLASHlogic Download Cable (PL-FLDLC). Going forward, customers should order the PL-ByteBlaster to program or configure any of Altera's FLASHlogic devices using the updated PLDshell 5.1 utility. If you do not already have this utility, it can be downloaded, at no additional cost, from Altera's web site at <http://www.altera.com>.

Customers may continue to use the existing PL-FLDLC cable to program or configure any FLASHlogic device.

### **Obsolescence Plan**

Date for last order acceptance:                      October 31, 1996  
Date for last Altera shipments:                      January 31, 1997

**Table 1: Summary of Devices to Become Obsolete**

<b>Existing Code</b>	<b>Recommended Alternative</b>
PL-FLDLC	PL-ByteBlaster

Please contact your local Altera Sales Representative if you require additional information regarding the changes described in this PDN.
