

Product Discontinuance Notice FLASHlogic EPX880 & EPX8160 to Become Obsolete

This notice is to announce the planned obsolescence of the FLASHlogic family of devices. This announcement affects all EPX880 and EPX8160 ordering codes. The planned phaseout of the EPX880 and EPX8160 is:

Date for last order acceptance:	June 30, 1997
Date for last Altera shipments:	June 30, 1998

Table 1 shows a listing of the ordering codes affected by this phaseout.

EPX880LC84-10	EPX8160QC208-12
EPX880QC132-10	EPX8160QC208-10
EPX880QI132-12	EPX8160QI208-12

The phaseout of these devices is due to the end-of -life for the FLASHlogic manufacturing process. The obsolescences previously announced for the EPX740 and EPX780 are still in effect. Customers needing support to help redesign existing applications should contact their local Altera salesperson. In North America, you may also contact the Altera Applications hotline at (800) 800-EPLD.
